for what tomorrow will do
may bring forth.

Vol. 41. No. 18

ESTABLISHED JUNE 1907 — AN INDEPENDENT COUNTY NEWSPAPER

JEFFERSONTOWN, KY., FRIDAY, SEPTEMBER 10, 1947

596 Enrolled At
Jeffersontown School

Jeffersontown High School began its 1947-48 school year with an initial enrollment of 586. There were 64 freshmen, 72 sophomores, 97 juniors, 46 seniors, and 339 grade school children.

Two portables have been constructed for the grade school children and two new teachers have been added to the faculty to take care of their increase in enrollment.

Miss Ruth Hill of Jeffersontown teaches part of the second and third grades and Miss Ruth Riley of Fern Creek teaches part of the fourth and fifth grades. No teachers of last year's faculty have been replaced.

The upper classmen elected officers Sept. 16. Mr. H. J. Priest, principal, advised the freshmen class to postpone their election until they become better acquainted. Senior officers are: Maurice Trautwein, president; Bob Spencer, vice president; June Lewis, secretary, and William Stutzbarger, treasurer.

Junior officers are: H. W. Elder, president; Doris Strohmeyer, vice president; David Smith, treasurer, and Shirley Hewitt, secretary. Sophomore officers are: William Metzger, president; Joe Hewitt, vice president; Tyler Ann Diemer, secretary, and Teddy Trautwein, treasurer.

Coach Laurence Gamble reported the following football schedule:

Sept. 26—Flaget J. V.'s. here
Oct. 3—Carrollton here
Oct. 10—Valley here
Oct. 17—Anchorage here
Oct. 24—Rugby here
Oct. 31—Okeana here
Nov. 7—Fairdale here
Nov. 14—Fern Creek there

John Lee Gentry
Windstorm Victim

Funeral services were Monday afternoon at 2 o'clock at the Jeffersontown Christian Church for John Lee Gentry, Sr., 29, Eastern Kentucky University, who died in Chenoweth Run, Casey, Ky.

Gentry was fatally injured late afternoon during the terrific windstorm which did considerable damage to downtown Louisville. While unconscious, he was struck by a truck at 238 East Liberty, a concrete block building under construction collapsed on him. He died that evening at 11:45 at General Hospital.

Surviving are his wife, Mrs. Gladys Rogers Gentry, daughter, Shirley May and son, John Lee, parents, Mr. and Mrs. Herbert Gentry, 3 sisters, Mrs. Helen Kaufman, Misses Juanita and Betty Gentry and a brother, Kenneth Gentry.

Anchorage Seamen Get
Training On Rochester

Two Anchorage Navy reservists, Robert B. Cregar, apprentice seaman, U.S.N.R., son of Mr. and Mrs. W. W. Cregar, of Cleveland, Ohio, and Burwell Harder, apprentice seaman, U.S.N.R., son of Mr. and Mrs. Ewing L. Harder, of Lowell, Ohio, have completed a two-week Naval Reserve training course to Nova Scotia aboard the heavy cruiser USS Rochester.

The cruise, designed to instruct the reservists in the latest Navy equipment and practices, is part of peacetime Naval Reserve training. For many of the reserve ap-
plicants, this was the first taste of life at sea with the Navy.

Burley Growers Meet
To Name Delegates

Burley tobacco growers of the Burley Growers Cooperative Association, meet Saturday, September 20, at 2 p.m. at respective county seats to select delegates who, in turn, will elect delegates from as many districts named. This method is followed so that there may be competent management based upon a democratic method of selection, it is stated.

The Burley Association handled approximately 600,000 cans of tobacco (113,000 pounds) last winter, it is reported.

To keep from falling over your own faults — is to take your eyes off other people's faults.

A silent enemy is much more of an asset than a talkative friend.

What we overhear always sounds a lot more interesting than what we hear.

A NEWS ITEM: Phone The Jeffersonian, 5143.

GOES TO N. CAROLINA

Effective October 1, R. G. Lytle, editor of the Cooperative Dairyman, official organ of the Falls City Cooperative Milk Producers' Association, will become assistant manager of the North Carolina Milk Producers' Association, with headquarters at Greensboro.

C. M. Cobb, who with his family resides in St. Matthews, has been elected to the Falls City cooperative for several years, during which time he has become one of the most popular figures in the Louisville milkshed.

The Falls City directors expressed in formal resolution their appreciation for Lytle's valuable and efficient work for "him," and their deep regret in having to accept his resignation.

Locals 'Perfect Hosts'
Taylorsville Victors

The Jeffersontown Ball Club proved to be perfect hosts last Sunday when they presented the Taylorsville team with a 5 to 3 victory on the local grounds.

Errors, walks and fluke hits enabled the winners to score four times in the fifth inning. They added to the one presented them in the third inning, put the locals behind so far that their ninth-inning rally for two runs was not enough.

Failure to hit with runners on base really cost them the game as 10 men reached first base safely with only three able to make the circuit.

D. Tindle, the victor's erratic batter, allowed nine hits, walked two and hit four batters—most was tough in the pinches. He Jack Puch buried another good game, except for the fourth inning when his wildness got him into the hot seat.

Jack Puch buried another good game, except for the fourth inning when his wildness got him into the hot seat. He was known for his excellent pitching and illustrations, and intimate knowledge of the Bible.

His older brother, Edgar Dewey, was killed in an automobile wreck near Mission, Texas, several years ago.

Mr. Sprawl was laid to rest Monday night in the old Cemetery, a niece of the noted late reformer and author, Anthony Comstock.

Three Dead, Result
Of Collision Monday

Landon Wade, whose home is near Mt. Washington, and Henry Yeager, of Louisville, were killed Monday morning when Wade's car and a gasoline truck, driven by Yeager and owned by the Louisville Refining Co. collided on Bardstown Road between Waterson Trail and Fairground Road.

Other passengers in the car were Wade's wife, Mrs. Imogene Wade, who in a serious condition at Deaconess Hospital and Mrs. Elmyra Grunden, his sister-in-law, who died there Tuesday morning. Both women suffered severe burns when the truck exploded into flames.

Wade, in his 31st year, is the son of Mr. and Mrs. Robert Wade of Mt. Washington, who survive, and his wife and two brothers, Russell Wade, Mt. Washington and Preston Wade, New York, and a sister, Mrs. Jack Stallings and Mrs. J. B. Close of Shepherdsville. Remains were taken to the funeral home, Mt. Washington for burial.

Mrs. Grunden, 32, mother of an eight weeks old daughter, was buried at the Washington Cemetery Thursday afternoon, following services at the Baptist Church there. Other survivors are her husband, Herschel Grunden; parents, Mr. and Mrs. Roy Owen and a brother Paul Owen, all of Louisville.

Mrs. Dapne Cunningham of Louisville.

Dr. C. Oscar Johnson, president of the Baptist World Alliance, is visiting in the city.

Dr. Johnson, pastor of the Great Third Baptist Church of St. Louis, Mo., is regarded as one of our nation's leading preachers and public speakers. He is a graduate of Carson-Newman College and a member of the Baptist ministry, and has held pastorate at Campbellsville, Ky., Los Angeles, Calif., and Tacoma, Wash.

His audience, the largest church-seating capacity in St. Louis, overflows every service, and he is well known for his excellent preaching and illustrations, and intimate knowledge of the Bible.

His older brother, Edgar Dewey, was killed in an automobile wreck near Mission, Texas, several years ago.

Mr. Sprawl was laid to rest Monday night in the old Cemetery, a niece of the noted late reformer and author, Anthony Comstock.

COUNTY DISPLAY STATE FAIR WINNER

Jefferson County won first place in the agricultural class of the County Booth Exhibit Division at the Kentucky State Fair. With the first booth exhibit entry made by this County in 20 years, Jefferson won the blue ribbon and a \$125 cash prize over some stiff competition among the 50 counties showing.

Sponsored by the Jefferson County Fair Bureau, with the Louisville Junior Chamber of Commerce acting as co-sponsor, the exhibit was conceived by R. Willis Stout, secretary of the Jefferson County Fair Bureau, and chairman of the county's booth exhibit committee.

Mr. Stout was assisted by the following public-official Jefferson County citizens: W. Anderson, County Agent; statistician; Billy Smith, Louisville, sign painting; Harvey Stout, Fern Creek, carpenter work and erection; Allen Blankenbaker, Jr., plaster mold artist, for the Corcoran C. G. Reed, Camp Taylor, metal work; F. R. Scholtz, and Miss Anita Scholtz, Frank H. Gregg has been elected manager of the hospital, and a local location and superintendent of the new building.

The Louisville district was held in the selection of Dr. Roy H. Short and Dr. I. M. Hargett as two of the delegates to the General Assembly, which met in Boston next May. F. H. Gregg was chosen also, as a lay delegate.

Collecting field crops and seeds was handled by Carl Winkler, and Fred Stutenberger, Springfield, and Mrs. Stutenberger, erecting a model C. H. Brown, assistant County agent, farm animal models and counsel; J. M. Perrelli, shrub and plant material, and Sons, dry ice.

Collecting field crops and seeds was handled by Carl Winkler, and Fred Stutenberger, Springfield, and Mrs. Stutenberger, erecting a model C. H. Brown, assistant County agent, farm animal models and counsel; J. M. Perrelli, shrub and plant material, and Sons, dry ice.

Some Pastors Change
Huddleston Stays Here

By Rev. C. E. Dickey
Glasgow, Ky., Sept. 14 (Special to The Jeffersonian)—The Louisville Conference closed its one hundred and first session here today with the assignment of the 208 pastors to their various churches in the seven districts of the area.

Jeffersontown and Fern Creek are fortunate to have their pastor, Rev. W. E. Huddleston returned for another year. Rev. H. T. Matthews comes from Springfield to Middletown. Rev. J. P. Stamer is assigned to Monticello. Rev. M. R. Owen is returned to St. Matthews. Rev. M. L. Dyer takes the place of H. J. Ray at Western. Rev. H. A. Jackson remains at Mt. Holly. Rev. Amos Miller remains at Parkwood and is also assigned to Kewanna. Rev. H. T. Chandler takes the place of Rev. T. T. Frazier, who retired, at Parkview. Rev. John Brisson and Rev. J. L. Coomer are returned to Shepherdsville and Mt. Washington, respectively.

Rev. Dye is assigned to the Shepherdsville Circuit in the place of Rev. Richard Ramsey, who goes to Sonoma. Rev. R. Noland comes to Bethany in the place of Rev. J. W. Averitt, who goes to Scottsville.

The new ministers assigned to the Louisville Churches, are: Rev. W. L. Munday, Highland; Rev. J. L. Leary, McGuffee; Rev. N. Monahan, C. L. Moore, Jr., F. Layman, Newton Miller, Alvin C. Gentry, Hardin, Robert C. Hamilton, Herbert Downs, Don Craft, Cliff Jackson, George Stutzbarger, Maurice Luker, Dr. J. V. Mahon and Henry M. Lane.

The campaign for the new Methodist Hospital to be located in or near Louisville, received 88 percent in cash and subscriptions of the goal of \$1,500,000. Frank H. Gregg has been elected manager of the hospital, and a local location and superintendent of the new building.

The Louisville district was held in the selection of Dr. Roy H. Short and Dr. I. M. Hargett as two of the delegates to the General Assembly, which met in Boston next May. F. H. Gregg was chosen also, as a lay delegate.

Service Station Robbed
\$500 Loot Carried Off

The Hill Service Station at Buchtel was again visited by robbers on Sunday night, when \$500 apparently carried off. It was reported that the robbers, who had all cash available, they picked up the cash register and carried it off intact.

Other items included spotlights, foglights, seat covers, and etc.

This makes the nineteenth time that the Hill station has been robbed. County police found the cash register on a nearby side road.

Buechel Firemen Enjoy
Second Annual Dinner

Volunteer firemen of Buchtel enjoyed their second annual dinner Tuesday night of last week, when the Buchtel Fire Department was held at the O.A. on the Bardstown Road, Capt. H. L. Foster, of the Louisville Fire Prevention Bureau, was guest speaker for the occasion.

Among those present to encourage the fire fighters and welcome the visitors were Bill Rice, chairman of the Department organization, and Attorney Orlan Clarke. Volunteer firemen present at the dinner, who are members of organization, included Thurston Schmidt, Assistant Chief; Roy Schmidt, Norbert Schmidt, Frank Von Frank, Alvin, St. N. Monahan, C. L. Moore, Jr., F. Layman, Newton Miller, Alvin C. Gentry, Hardin, Robert C. Hamilton, Herbert Downs, Don Craft, Cliff Jackson, George Stutzbarger, Maurice Luker, Dr. J. V. Mahon and Henry M. Lane.

Easter Parade Wins
Grand Championship

With an overflowing horse show pavilion Saturday night at the State Fair—with the grand prize pulled prizes and 1st in White Rock pullet and 1st in White Rock pullet.

Leon Ellingsworth, past chapter president, won 2nd with Jersey heifer in F.F.A., 6th in potatoes, 2nd in best single ear in gluts, 2nd and 3rd in Kentucky and open classes on his yearling and aged boys.

In the crop section Henry placed 2nd and 8th in best ears yellow hybrid corn, 1st in yellow hybrid corn, 1st in Barred Rock cocker.

Richard Moody, chapter president, placed 1st with potatoes, having won also last year. Donnie Heister won 8th in White Rock pullet and 10th in best 10 ears yellow hybrid corn, and 10th in Barred Rock cocker.

It was a great victory for Miss Gardner's Louisville stable. Gardens of roses were presented to the winners by Tom Coker. J. Paul Jones, Springfield, a chestnut mare, was third, ridden by Harry Talbot.

The world's three-gaited grand championship was won by the horse, owned by Mr. and Mrs. J. Everett Pidgeon, of Magnolia Farms, Memphis, Tenn.

In the child-rider class, 8 years and under, Timothy Hay of Frankfort was the proud young winner.

The \$500 championship jumper was won by Twilight, owned by Jayne & Owen LeGrange, III, and ridden by Bill Owen.

DAUGHTER OF MR. AND MRS. G. A. BRYANT AT HOSPITAL

Betty Jean, 16-year-old daughter of Mr. and Mrs. Gilbert A. Bryant, Eastwood, was taken to Norton Infirmary last Friday for observation and treatment.

Although still having some fever, Miss Bryant's condition seems to be improving. She is in the Jeffersontown High School, where her friends wish for her a quick recovery.

Local F. F. A. Wins
Grand Prize At Fair

Henry Graff, Jr., a member of the Jeffersontown Chapter F.F.A., who earned the State Farmer Degree in F.F.A. work at the State F.F.A. convention in Louisville in August has added more wins to his F.F.A. work.

He led his chapter in winning the F.F.A. dairy prize given to the chapter making the best showing in the dairy department and also in winning the Grand Prize given to the F.F.A. Chapter in the state that makes the best showing in the State Fair. The chapter members also won the number of wins are both figured in earning the prize.

Henry won 2nd and 3rd in Dutch-Jersey heifer, 1st and 3rd in Jersey heifer, 2nd in senior yearling, and 1st in Jersey cow in the F.F.A. classes. He also won 2nd in gluts, 2nd and 3rd in Kentucky and open classes on his yearling and aged boys.

In the crop section Henry placed 2nd and 8th in best ears yellow hybrid corn, 1st in yellow hybrid corn, 1st in Barred Rock cocker.

Richard Moody, chapter president, placed 1st with potatoes, having won also last year. Donnie Heister won 8th in White Rock pullet and 10th in best 10 ears yellow hybrid corn, and 10th in Barred Rock cocker

FAIR OFFICIALS DESERVE PRAISE
Declaring that the 1947, forty-fourth annual, Kentucky State Fair was a success from a standpoint of both profit and attendance, not to speak of the number and quality of the livestock, industrial and educational exhibits, General Manager J. O. (Jed) Matlick told the Jeffersonian Tuesday that he figures to prove this will soon be made public. A complete report and audit on the fair, he said, is in preparation and will go to the Fair Board promptly.

President J. R. Hedgeson, who has been a fair official for more than thirty years, echoed Matlick's statement, and added that an effort will be made to make next year's fair an even better success. There were many things that could not be done this year on account of the post-war condition of the fairgrounds and insufficient funds for needed reconstruction. Desired features had to be omitted.

Next year there may be a free outer-act. This will enable patrons to view the livestock and general educational exhibits free. The idea has been suggested by other state fairs, and will be considered by the board of directors at an early meeting, Matlick, who favors the suggestion, said.

Fair officials worked hard to make this year's fair a success. They deserve both praise and congratulation. The Jeffersonian extends its hand.

GRANDEUR IN TEACHING
The youth of this county, as all over the nation, are back to books again. With overflowing classrooms, the county schools are again pursuing expanded courses in the "Three R's." With teachers told the Jeffersonian Tuesday that they should be a degree happier in their profession, even though the shrunken dollar beats them out of a considerable portion of the increase. Students too, we trust, are happy, with increased facilities for academic and physical training, as well as for recreation and sports. The parents, also, should be better satisfied, now that the governmental agencies, with the taxpayers' consent and support, have made a more adequate and honorable provision for remuneration to the teachers.

We have read with gratification Prof. Orville Stivers' message to his Jefferson County teachers, wherein is implied the very high calling of the teaching profession. We hope, for the sake of the teachers, as well as for the pupils, that the Superintendent's message has fallen on open ears and receptive minds. Particularly when he calls for teaching by both precept and example that "A clean, moral, temperate, industrious, unselfish life is worth living, because such a life leads to rewards both here and hereafter."

And where could rewards be found more lucrative (if one isn't a mere materialist) and satisfactory than in the realm of the conscientious, consecrated teaching? The Superintendent mentions character and the teachers that there is "grandeur in teaching" for those who "teach boys and girls that it is great to live, but awful to live and not realize and meet the responsibilities of life."

And when parents and teachers work together in the interest of spiritual values in the development of human personalities, we shall begin to hear less about juvenile delinquency.

STATE ROAD BUILDING
Getting Kentucky roads out of the mud, visualized the farm-to-market road program, and the fact that the state took systematic road building in Kentucky, it was realized that the main thoroughfares should come first under the limited appropriations.

These County roads led to the macadamization of the Blue Grass, and in the State.

The first "model road," advocated and built by the Government was a mile or so stretch near Kentucky University and the Experimental Station. It was based on the fact that the road, argument being that "the foundation is the most important part of a road." This holds true today, the experts say.

AMERICAN PEOPLE WANT TO KNOW
Uncle Sam, a sagacious, kindly old man, who wants to be the good neighbor, whether the neighbors like it or not, who will bear his feet, help get a weary and war-torn world back on its feet economically after the terrible destruction of property brought on by the pernicious, overambitious and ruthless Nazi German, Adolf Hitler (aided and abetted by Japan and enforced alliances), is trying to do all he can at heavy expense, and is not complaining.

But the bill he is facing—the cost—appears staggering. Already he owes approximately three hundred billion dollars—not to speak of the piling up of interest on the war reparations are apparently vast. He's sending his food and goods hungry just to keep others from starving—he's a willing performer but doesn't want to be played for a "sucker." He doesn't intend to—at least, he thinks he will avoid being "shaken down."

The American people have been and are generous—"generous to a fault," if you will, but the American people want to know where their food and money is going, and if it is accomplishing all of what is intended.

So, to this end, as pointed out by Frederick K. U. New York's P.M. correspondent writing from Paris, "the U. S. A. has decided to ask the 16 nations attending the Paris economic conference to reconsider the figure of \$19,726,000,000 which, according to the conference's verdict, is the deficit that the U. S. A. will have to underwrite for the next four years to supply the sinews of recovery."

Under Secretary of State William Clayton has concluded that the size of the estimate of U. S. credit required to finance the Marshall Plan would frighten the American people and possibly cause Congress to react from the plan," Kuhn says.

there are a few other industries which thrive when the economic cycle dips low, when dollars are scarce and goods plentiful, few would welcome a full-blown depression in order to give these essential enterprises their living. However, in view of the fact that such things as the boom-and-bust pattern of the economic cycle seem rather unalterably fixed, it is somewhat of a comfort to reflect that even such an "ill wind" as the present bubble of inflation produces, does "blow somebody good."

If you wish to get ahead, avoid using up too much time on detail. In the upper economic levels, the American people have developed a casualness about life that is really amazing. It must appear strange also to emigrants

from Europe, who are unacquainted with our national nonchalance, the casualness of indifference among what might have been styled our more respectable class seems to trace back to the continuousness of a new land, as ours was with rich bounty for the taking. Possibilities are usually of an immense disposition. This may run over for a generation or two, and keep up the pep of even grand children, those who have had the best of the world. Ultimately, though, a casual attitude develops as a result of a surfeit of prices and comfortableness. It is generations succeeding generations enjoying the same ultra-secure which does the mischief.

For it is a sign of the start of the decay of the social fabric of a nation when its upper class loses its virtue.

"Public business, transacted in private, is usually monkey business."—Dick Oberlin, WILLAS commentator.

LOOKING AHEAD
By GEORGE S. BENSON
President, Western College
Darien, Arkansas
Planner's Dream
"With more miners at work and more machinery, Britain is producing 18,000,000 tons less coal per year than in 1941." This statement by Mr. Churchill aptly sums up the results of nationalization. It is striking that where—as England used to export large quantities of coal, she is now importing 18,000,000 tons from the United States. This is the picture 18 months after nationalization of Britain's coal industry was begun.

Just last summer in England I had a conference with Mr. Michael Young, head of the research department of the Labor party, and their chief economist. Thirty or so years of age, tall and slender, Mr. Young exuded a great confidence in England's prospects of nationalization of industry. He hoped the program would proceed rapidly to the point where all industries, and he was confident it would bring full employment, rapid growth of the standard of living, and the country would prosper. Mr. Young's hopes remain in the dream stage.

High British officials came to Washington last month. They wanted to discuss new terms of the American loan. A London report of their interview with Secretary of the Treasury John Snyder tells of a British official asking the British officials whether nationalization had not failed to produce more coal and if it had hampered output. Mr. Snyder was also firm in inquiring whether Britain, under the terms of nationalization, was "still going to be a solvent country."

While Englishmen sit on vast coal reserves, yet importing coal, one can understand that Secretary of the Treasury Snyder's results of nationalization. While England has nationalized about half the industries marked by the Labor government, her program now seems at a standstill. Nationalization of the steel industry, but been postponed, and land nationalization has not gone ahead as anticipated.

Failure Evident
This slow-down in the program has caused the British industries already nationalized showed no long-term improvement in productivity. In coal mining there was at first an upward surge of output. But soon the gain wore off, and turned into a dramatic loss. This experiment in government management of industry simply did not come through. Other industries are learning in the same manner.

The Labor government, which has urged more construction of houses, now find it necessary to reduce its quota of new houses by 80,000. The use of petrol is to be cut down by one-third; foreign travel is to be reduced by one-fifth. An individual can now buy only 20 cubic feet of beer a week. The fact that the food situation is extremely critical plus the fact that the government is unable to get production led to the passing of Britain's Crisis Bill.

Dictator Law
This unprecedented law provides powers over people, money, materials, and more sweeping than anything England has ever known. The British Press described the Bill as giving the government power to:

- 1. Direct labor within an industry or from one industry to another.
- 2. Replace inefficient management in any industry by government nominees, who will mean, in effect, taking over the business.
- 3. Divert investments into carrying out other projects.
- 4. Control hours and conditions of work, and even rates of pay.
- 5. Send supplies and materials to certain industries, and keep them going into others.

Order rules are reported to given markets, and prevent them going to others less profitable.

These dictatorial powers are the true offspring of a government man.

They have been made necessary in England by the type of economy chosen there.

ky met at the Governor's Mansion with Governor Laffoon to discuss the bill. After discussing the matter until midnight the Governor finally turned to Senator Clemen and asked him what he would do under the circumstances. His answer was that he felt certain that he would support the bill in three days, he would declare a holiday for all of the banks in the United States and that if he were Governor he would declare a three-day holiday in Kentucky. The next morning the Governor issued the proclamation and then the President declared it nation-wide and practically every bank in Kentucky was solvent and with this country all of them came through in good condition.

He was named Collector of Internal Revenue in 1933 and has served in such capacity since that time. The collections in 1932 in the State of Kentucky were \$22,000,000, whereas last year the collections were \$750,000,000.

Hopewell News
By Miss Jennie Seitz.
Revival services are to begin at the Baptist Church Wednesday night, September 24, and will continue through October 5. Reverend Horton will preach and plans to have a special song leader. Services are to start at 7:45 p. m. Everyone is invited to attend.

The Ladies' Auxiliary met last Wednesday afternoon at the home of Mrs. May Seitz. Quite a nice crowd attended this meeting.

Sympathy is extended to the bereaved family of Mr. John Lee Gentry, who was seriously injured Friday afternoon and died a few hours later.

Sorry to report Mr. Leroy

This is the first of a series of stories about people prominent in our political and economic life.

Seldon R. Glenn, before he became Collector of Internal Revenue or rather before the Hatch Act prohibiting political activity of certain Federal employees, was an active and forceful power in the Democratic Party. He was, and is, a close friend of Senator Lynn Borah and their careers have been closely allied. From his experience and personal observation I believe that Mr. Glenn and Vice Barnes are the most astute political prognosticators in the country. Their predictions on elections are amazingly accurate and the influence Mr. Glenn wields with all members of the party is one that cannot be denied.

S. R. Glenn was born in Lyon County on a farm. Received a common school education. When 17 years of age he took a position in a store, which employment continued for a period of four years, at \$15.00 per month. He was elected Mayor of Edgelyville the day before he was twenty-one years of age.

At twenty-six years of age he became President of the Citizens Bank of Kuttawa, Ky., then the youngest president of any bank in Kentucky.

In 1911 he was elected to the State Senate and served two terms. The most important bills which he introduced and were enacted into law were the Confederate Pension Bill, which provided for the pensioning of Confederate soldiers and sailors, and the insurance bill, which regulated fire insurance, both of which bills are still on the statute books.

In 1918 he was elected Secretary of the State Committee and opened the permanent office of the American loan. A London report of their interview with Secretary of the Treasury John Snyder tells of a British official asking the British officials whether nationalization had not failed to produce more coal and if it had hampered output. Mr. Snyder was also firm in inquiring whether Britain, under the terms of nationalization, was "still going to be a solvent country."

Lovorn Heights News

By Mrs. Oscar Kaufman.

Mr. and Mrs. Harvey entertained at supper Tuesday in honor of their daughter's fourth birthday. Those present were Mr. and Mrs. Leslie Fisher, Mr. and Mrs. J. O. Fisher and son, Donnie, Misses Pearl Fisher, and Carolyn Shale and Mr. Marion Fisher.

Mr. and Mrs. Sherman Derring and Mrs. Everett Miller and Mr.

Paul Jones of Indianapolis were Sunday over-night guests of Mr. and Mrs. L. M. Covington.

Mr. and Mrs. Edward Hicks of Minor's Lane wish to express through this column their thanks and appreciation to all who have helped them. Their home and contents were destroyed by fire.

Mr. and Mrs. Julius Hart and family called on Mr. and Mrs. Edw. Kaufman, Sunday.

Mr. and Mrs. Wallace Kaufman and family were Sunday night callers of Mr. and Mrs. Edw. Kaufman.

Mr. Neal Kaufman is improving after being on the sick list for a while.

Mr. and Mrs. Keith Best called on Mr. and Mrs. Alden Kaufman, Thursday night.

Mr. and Mrs. Alden Kaufman spent Sunday with Mr. and Mrs. B. H. Ewing for a birthday dinner.

Mrs. John Emly called on Mrs. Neal Kaufman Friday.

Mrs. J. O. Fisher received news of the sad and sudden death of her brother-in-law, Mr. Johnnie Gentry of near Jeffersonville. He was killed when a building collapsed at the Haymarket Friday evening. Sympathy is extended to all bereaved by his passing.

Mr. and Mrs. Oscar Kaufman had as dinner guests Sunday Mr. and Mrs. Bethel Parrott and daughters, Doris Ann and Betty Sue, Mr. and Mrs. James Ellingsworth, Mr. and Mrs. Arthur Krebs and children, Irvin, Lawrence, Buddy and Ruth Ann, Mr. and Mrs. Roscoe Stillwell and sons, Norman and David; Mr. Eddie and Gene Morrison, Mr. Warren Age and son and Mr. Cleveland Eldridge.

Mrs. Oscar Kaufman and daughter, Joyce, attended the State Fair Thursday.

Mr. Theodore F. (Ted) Trainor left September 7 for Wayne, Penn., where he will attend Valley Forge Military Academy.

Electronic Device Used to Grade Eggs

New Method Gives Promise of Revolution.

ITHACA, N. Y. — An electronic method of grading and sorting eggs that is said to hold promise of revolutionizing egg grading, has been developed at Cornell University agricultural experiment station by Prof. Alexis L. Romanoff.

It sorts eggs for internal quality and potential perishability better than present procedures, telling about internal conditions that cannot be seen.

Ordinarily eggs are graded by candle. An egg is held before a light, and the candler observes size of air cell, color and movement of yolk, and cleanness of albumen, all of which help to determine the grade.

In the new Romanoff method, the egg is placed into a coil lying in an electromagnetic field of radio frequency. In this field the current passes through the egg, which absorbs the electric power. The power is measured and shown up on a meter.

Good eggs absorb the least power and poor eggs the most. The electronic method does not reveal blood in eggs, as present, making one candling necessary, but it does eliminate several subsequent candling operations, and this would be an immense saving on the billions of eggs marketed each year.

In the experimental laboratory equipment the meter shows two distinct lines. "Good, medium, poor," Romanoff said.

The new method is considered close to 100 per cent accurate as compared with the 75 per cent accuracy of the candling system. Cornell Research Foundation has received the gift of the patent on the device in a commercial form.

Romanoff came upon the electronic method while researching egg fertility extending back to 1938. In the process of studying thousands of eggs, certain peculiarities were observed, due to quality. Some of the differences between fertile and infertile eggs, for example, were so small that a new method had to be devised to determine them. And thus electronics came to his poultry laboratory.

sudden sick spell Sunday which they fear is appendicitis. Haven't heard from him this morning.

Mr. Jimmy Kaufman (Uncle Jimmy as we all know him) has been suffering with a severe case of kidney trouble. They think an operation will be necessary before long in order to give him relief.

Mrs. Grace Lane fell when crossing a ledge near her home last week and pulled the ligaments loose in her foot. Last report it was giving her quite a bit of pain. We sincerely hope each of these will soon be on the road to recovery.

Mr. and Mrs. William Downing spent the day in Hodgenville, Sunday with friends.

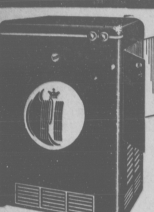

The young people of High View Church met for a marshmallow roast last Friday night at the home of Miss Betty Burroughs, but due to the hard rain all were run to the house before it was over. But each one enjoyed themselves talking and playing games.

Mr. Pete Bishop has sold his store here in High View. The new man's name is Mr. Ernst.

Mr. Carl Hermann's sale is next Saturday afternoon. We sure like to see these good folks love our community, but welcome the new folks whose name is Thornbuckle. I understand right.

Listen, folks! We are looking interest in the club and our fire department. Please come out with your pockets full of money Saturday night, Sept. 27, to the fish fry at the fire house, and members, don't forget your donations.

Atom Power Station Plan Is Explained in London

LONDON. — Britain's first atomic power station, a huge plant designed to produce electricity from uranium, is to be built at Drigg in Cumberland, the Daily Express said.

Several uranium engines will be set up, the article said, and "plans to have the first engine working within five years have been approved by the cabinet. It is estimated to cost 7,000,000 pounds (\$28,000,000)."

"This engine is expected to have a full production output of 75,000 kilowatts, enough to supply light and power to a city the size of Liverpool—the fourth city of the British Isles with 853,000 people," the Express said. "If it is a success, other engines will be built at Drigg and a second atomic power station will be set up in Scotland."

"The total output of these two plants should eventually be more than 1,000,000 kilowatts, contributing a quarter of Britain's electrical power needs and saving 5,000,000 tons of coal a year."

More Men in Armies Now Than in '38 at War's Edge

NEW YORK.—Hansen W. Baldwin, military writer, says that at least 18 million men are under arms throughout the world today and that about 40 nations are spending \$27,400,000,000 annually for armaments.

Baldwin arrived at these figures through an unofficial world military survey which, he said, indicated that the nations were "spending perhaps 10 billion dollars more on armaments than they did on the eve of war in 1938."

Part of the increase in cost, Baldwin said, is a paper increase due to inflated currency values, but he added that despite the disappearance of Germany and Japan as military powers, more men are in uniform today than in pre-war years.

The survey was based on data gathered in foreign countries supplemented by material furnished by U. S. military sources and by representatives of foreign governments here, Baldwin said.

High View News

By Mrs. Joe Baile

The meeting starts this Monday night at High View Church of Christ with Bro. Orell Overman as speaker. Everyone is invited to come hear this fine man.

Mr. Arthur Goins, who has been in the hospital for the past week, is doing nicely now and is expected to come home by the middle of the week.

Mr. Herbert Wright had a very

Hebron News

By Mrs. Ida Holcav

I was interested in the article in last week's Jeffersonian about Brunerston and not until I was of mature age did I find out that Brunerston and Jefferson were one and the same town. Hearing others speak of Jeffersontown I thought them two distinct localities.

This afternoon, the 15th, the body of Mrs. Kelly, nee Ada Ridgway, sister of Mrs. Sam Gentry here, was laid to rest in Hebron cemetery after funeral services conducted by Rev. John Lawrence, pastor of Little Picket. Mrs. Kelly was killed last Friday night when, after alighting from a bus, she walked into an oncoming car.

Mrs. Dudley Shelburne will be hostess to the Hebron Auxiliary Thursday all day. We appreciate her efforts.

Mr. and Mrs. Robert Ball are celebrating their 14th anniversary today. Several nice gifts and cards came their way.

Every woman will do the best she can about the dress question and that's the long and short of it. Joe Brooks visited his old friend, Morris Nash, Sunday. He is in a Louisville institution and in poor health.

Chester Owen, injured at the Blue Valley plant, is able to be back at work but in the office now.

Mrs. Eva Bennett, city, was guest of J. N. Brooks' family Sunday.

Glad to have a visit from Mrs. Roger Barger, Sunday. She has been ill for some months and unable to give pleasure with her musical talent.

John A. Crumbracker was ordained a Deacon in Little Picket Church yesterday morning in a most solemn service in which Rev. Rexford Campbell of North Carolina officiated.

Mrs. and Mrs. Milton Church, city, were dinner guests of Ida Holcav and Miss Mary Saturday evening.

MEET THE NEW ARRIVALS

Sherry Maureen is the name given the baby daughter of Mr. and Mrs. Epp Stieh, Jr. She was born August 27 at Norton Memorial Infirmary and is the first grandchild of Mr. and Mrs. Epp Stieh, Sr., owners of a garage and service station at Eight Mile House. Mrs. Stieh, Sr., is the former Margie Irsel.

Carolyn Sue is the small daughter of Mr. and Mrs. E. R. Todd, born August 19 at the Kentucky Baptist Hospital. Her daddy plays right tackle on the football team of U. of L. where he is a student.

Announcement is made of the birth of a son, Ross, to Mr. and Mrs. Malcolm Atterburn, August 23, at the Kentucky Baptist Hospital.

Capt. M. L. McShane and Mrs. McShane announce the birth of their son, Thomas Patrick, August 23 at the Deaconess Hospital.

Mrs. Betty Brickley are leaving today (Monday) for Danville to attend Centre College. Miss Marjorie Marshall also expects to attend. Miss Kathryn Kramer will attend University of Louisville.

Little Betty Keelin has a Shetland pony.

Kentucky Military Institute began their school on Saturday. The cadets began to arrive on Wednesday and 300 are enrolled.

Springdale choir has begun its weekly rehearsals as they have been discontinued during the summer. Mrs. Ray Ehlers has consented to play the organ as Miss Peggy Schneidtmiller, the regular organist, is away. Dr. James Skaggs is directing.

Mr. and Mrs. Ed Burger are building a new home on Simcoe Lane.

Soybeans Will Hold Own If Given Chance

Industry Making Real Demands for Big Crop

Since America's pioneer soybean processing plant began operations in 1922, soybeans have become a byword in agriculture and industry, ranking as the nation's fourth largest cash farm crop.

Soybeans, when processed, enter largely into three fields of use—farm, home and industry.

Farmers know soybeans as a crop which can be planted late, if necessary.

Do You Know?

Q: How an individual worker is protected by the Taft-Hartley Law?

A: Take one example. As an individual, a worker may bring an unfair labor practice charge against the union or his employer if he is threatened, discriminated against, or the union causes him to lose his job for a reason other than non-payment of union dues. There are many other provisions to protect the individual worker.

Q: How the Taft-Hartley Law affects union organization activities?

A: The right of workers to organize and bargain collectively, as in the Wagner Act, is guaranteed and protected. Employers are prohibited from coercing or intimidating workers when they exercise these rights. In addition, unions are prohibited from coercing or intimidating employees to induce them to join the union.

St. Matthews News

SHORT-HACKETT

At 8 o'clock Friday night, in the St. Matthews Methodist Church, the wedding of Miss Marion A. Short, daughter of Mr. and Mrs. Stanley B. Short and Mr. W. J. W. Hackett, was solemnized by candle light. The Rev. W. W. Short, pastor of the church, performed the double ring ceremony.

Wearing a gown of lace and marquisette made with fitted bodice, sweetheart neck line, long full sleeves and very full skirt ending in short train, the bride had finger-tip veil of illusion held by a coronet of lace and carried white roses and staphenotis. The bride's attendants carried pink roses and pom-pom chrysanthemums. They were: Miss Magene Shuler, maid of honor; Mrs. Shirley; Miss Agnes Hackett, in pink; and Misses Hackett, in green, were bridesmaids. Little Miss Lois Short was her sister's flower girl, wearing a pink dotted swiss dress and carrying a basket of rose petals.

Mr. Donald Fishback was best man and Messrs. Raymond Hackett and Robert Unterreiner were ushers. Master George Richards, Jr., was the ringbearer.

A reception was held at the home of the bride's parents on Bonner Avenue. They are students at U. of L. in Louisville.

A member of Zeta Tau Alpha sorority, Mrs. Hackett attended U. of L., where Mr. Hackett is a student.

The bride was guest of honor at a linen shower given by Miss Ernestine Cunningham; a personal shower given by Miss Carolyn Maier and a kitchen shower by Mrs. Stanley Hackett.

FLOWER-ALTHAUS

Miss Wilma Elsie Fowler, daughter of Mr. and Mrs. James Henry Fowler, became the bride of Mr. Henry Windehl Althaus, son of Mr. and Mrs. Carl Althaus, at 8 o'clock Thursday evening in the Crescent Hill Baptist Church. Dr. Rollins Burham, assisted by Dr. W. C. Boone, officiated.

Crowned in white sapphire satin the bride wore a double tiered finger-tip veil of illusion and carried white orchids and roses. Mesdames Melvin M. O'Neal and Charles B. Arendall, Jr., of Mobile, matrons of honor, wore gowns of tulle and carried white roses and yellow gladioli. Misses Carol Bolling and Susan Althaus, flower girls in salmon pink net frocks, carried baskets of rose petals.

The reception was given in the Crescent Hill Women's Club after which the young couple departed to spend their honeymoon at a resort in northern Indiana and Chicago.

The bride was extensively entertained. A kitchen shower and luncheon was given at the Old Stone Inn by Miss Barbara Covey and Mrs. H. B. Gurr; a linen shower by Miss Thelma Lewis; a miscellaneous party by Mrs. Henry Schleich; Jr. Miss Miranda was hostess at a party. The wedding breakfast at the Canary Cottage was given by Mrs. Arendall and Mrs. O'Neal; the rehearsal dinner was given by Mrs. A. H. Althaus.

and Mrs. P. M. Althaus at the home of Mr. and Mrs. Carl Althaus on Sprigg Road.

FORD-HENSON

Upon returning from their honeymoon, Mr. and Mrs. William C. Henson will live at 121 Wilshire. They were married at 8 o'clock Saturday morning in St. Francis of Rome Church. The Rev. B. J. Boland performed the ceremony.

The bride, Miss Adrienne Elizabeth Ford, daughter of Mr. and Mrs. Sylvester J. Ford, was given in marriage by her father. Her gown of white duchesse satin was made with fitted bodice, long full sleeves, short shoulder neck line with yoke of net. The skirt, with bustle effect, ended in a long train. Her full length veil of illusion fell from a coronet of satin. She carried staphenotis and long sleeves centered with a white orchid.

Mrs. Sylvia Southard and Miss Carolyn Roberts were the bride's attendants. They wore similar gowns of American beauty fairs, matching hats trimmed in ostrich tips and carried staphenotis.

Mr. C. J. Wagner, Jr., was best man and Messrs. Charles Roberts and William Brenzel, Jr., were ushers.

The wedding breakfast was served at the Kentucky Hotel. Mr. Henson, son of Mr. and Mrs. William G. Henson, is a member of Sigma Chi Sigma fraternity and Holy Name Band. He is a student at U. of L.

The bride was guest of honor at a dinner given by Mrs. Edmond Wyatt of Indianapolis; a miscellaneous shower given by Mrs. Charles Roberts and Miss Carolyn Roberts; the rehearsal dinner was given by Mr. and Mrs. William G. Henson; a bachelor dinner for the groom by Mr. C. J. Wagner, Jr.

A group of young people gave an out-of-door supper last Monday on the Philby Farm, home of Mr. and Mrs. Phil H. Schaad, Sr., on Lime Kiln Road. They were Messrs. and Mesdames Phil H. Schaad, Jr., Lewis P. Chalk, H. Drummond, Harry Lee Moore, H. K. Strassel, Jr., and Douglas Hickson.

Mr. and Mrs. Phil H. Schaad, Sr., were host and hostess at supper on Sunday evening. Their guests were Mr. and Mrs. Frank Kremer, Mrs. Enrie Kraft and daughter Joan, all of Chicago; Mr. and Mrs. Peter Knopf and Mrs. Otto Beder.

The William J. Griffins were host and hostess at a grill steak supper given Wednesday evening. The guests were Mr. and Mrs. L. M. Holme and Mr. and Mrs. James Drillette and Mrs. Gilbert Coulman.

Headly Road News

By Mrs. S. C. McMathan

Sympathy is extended to the family of John Lee Gentry who met a tragic death during the wind and rain storm in Louisville Friday afternoon. He was born and reared in this neighborhood.

Mr. and Mrs. Curtis Tyler, Mr. and Mrs. Fred Moran and Mrs. and Mrs. Palmer Brown and children were callers of Mr. and Mrs. Charles Lamaster and daughters Sunday afternoon.

Mrs. Edward Bishop and little daughter, Carol, visited Mrs. Charles Lamaster Saturday. Carol will spend a few days with Mrs. Lamaster.

Other callers in the Charles Lamaster home last week were Mrs. Mary Down and Mrs. Hale Connor, Thursday afternoon, and Mrs. Bradford Stewart Saturday afternoon.

Mr. and Mrs. Floyd McMathan,

Mr. and Mrs. Roy Stout and Miss Charlotte Stout were recent callers of Mr. and Mrs. James Stout. Glad to report Mr. A. T. Ludwig is expecting to come home from the Baptist Hospital early this week.

Mrs. Elmer Keller attended the State Fair Thursday afternoon and spent the night with Mr. and Mrs. John Stout in Louisville.

Mr. and Mrs. Floyd McMathan and Mr. and Mrs. Roy Stout enjoyed the day Thursday at the State Fair admiring the fine stock and poultry, farm, fruit and household exhibits; also the delicious picnic lunch prepared and served by the ladies.

Mrs. William Young spent the afternoon Tuesday with Mrs. S. C. McMathan.

Soybeans ready for the processor.

sary, and which brings comparatively high return per acre. They know soybeans, also, as a superior source of protein concentrates for use in livestock and poultry rations.

Produce made from soybeans go into hundreds of food items. Soybean oil is used in production of about 50 per cent of all shortenings. More than 60 per cent of all margarines are made from soybean oil. The soybean oil produced from nearly 1,000,000 acres is used in making margarine.

One of the subsidiary uses for soybeans is the field of medicine, where soybean oil is used as a carrier in capsule-packaging of vitamins.

The health-giving value of soybeans long has been recognized by the farmers of health foods. These things are secondary to the farmer. Yield and profit per acre and use of soybean oilmeal as a feed have been the farmer's first considerations. If the production of soybeans is to continue to increase, all use of soybeans must be developed and expanded.

The benefits of clover depend on how much nitrogen and organic matter it produces, and how much of those materials is returned to the soil as clover or as manure. When sweet clover is cut in the fall and removed from the field the resulting loss in nitrogen and organic matter reduces the yield of crops following in the rotation. When clover is not cut, those yields increase. The

SHORTCHANGE SOIL

The benefits of clover depend on how much nitrogen and organic matter it produces, and how much of those materials is returned to the soil as clover or as manure. When sweet clover is cut in the fall and removed from the field the resulting loss in nitrogen and organic matter reduces the yield of crops following in the rotation. When clover is not cut, those yields increase. The

above chart illustrates results of crop rotation tests at the Carbaugh soil experiment field by University of Illinois agronomists. In three-year rotation of corn, oats and wheat, sweet clover was seeded in the wheat and plowed under for corn the next spring. On one plot the stubble sweet clover was cut in the fall and removed. On another plot the sweet clover was left uncut. Both plots were plowed the following spring. The effect on yields of corn, oats and wheat following on each plot is summarized above.

New Type Spray Oil For Fruit Trees

A new superior type oil for use in dormant sprays for fruit trees has been developed by Geneva experiment station. The new type oils are said to be more effective and to be safer to use on fruit trees. It is estimated that 20 million gallons of oil are used annually throughout the world for horticultural sprays, sufficient to make about a billion gallons of dilute spray.

New Machine Aids Deep Fertilization

A machine capable of placing fertilizers at plow-depth and covering to a depth of 30 inches a day has been developed by an Illinois farmer. Fertilizer placed at root depth in the soil or in the bottom of the furrow has been gaining advocates at a rapid pace. The present machine if application has delayed its general application. It allows late season application after weather has become settled.

Jefferson County's
HOME NEWSPAPER

THE JEFFERSONIAN

ESTABLISHED JUNE 1907 - AN INDEPENDENT COUNTY NEWSPAPER

Vol. 41. No. 18

JEFFERSONTOWN, KY., FRIDAY, SEPTEMBER 19, 1947

40 YEARS AGO

The Jeffersonian of Thursday, September 5, 1907—forty years ago—records on page 1 the displeasure of certain citizens of Pleasure Ridge Park and Valley Station over the prospective purchase by the Louisville Anti-Tuberculosis Association of Waverly Hill, the home of Maj. Thomas H. Hayes, for an infirmary. Opposition, however, was of no avail, as the deal went through, and, as the situation was better understood, much of the opposition was withdrawn. . . . Mill Creek was to have a new school-house to be completed in about two weeks. . . . The funeral of George W. Ash, 67, for thirty years a leading blacksmith of Fairmont, was the "largest attended this vicinity has known for years." Services were held at the Cedar Creek Church with burial in Fairmont Cemetery. . . . Rev. N. A. Jones was conducting a protracted meeting at the Worthington Christian Church to last two weeks. . . . The Jefferson County Bank announced that it was paying 4 per cent interest while "city banks only pay 3 per cent." . . . Mr. and Mrs. William Westerman were being congratulated upon the arrival of a son, not named. . . . The small home, "Twywypa," near Anchorage, named from a tribe of Indians which once inhabited that particular woodland, and the home of C. C. S. Crum, of Louisville, who, with his aunt, Mrs. Starns, have moved into their new home. . . . The wedding of Miss Mattie Neal Hoke to Mr. Elwood Benjamin Butler is announced to place September 12 at the Jeffersontown Christian Church. Miss Hoke is employed as night operator at the Jeffersontown Telephone Exchange. . . . Mr. and Mrs. J. C. Crum, of Louisville, is a valued employee in the Jeffersonian printing office. . . . A mud-god was shot and killed in Felix Jennings' yard, near Jeffersontown, by Charles Thorne. . . . The farm of Mrs. Sarah Johnson, near Fairmont, 117 acres, was sold at public auction to Peter Kaufman for \$4,070 cash. . . . Mr. R. Pfanz, has announced as a candidate for Mayor of Louisville. . . . The Jeffersonian in its 40th year, declaring that since he is so good an official, "where he is" is the show-up in his. . . . A blue ribbon winner at the Kentucky State Fair was Mrs. Henry M. Young of Schuff Lane, who received first prize on black fruit cake which she baked in December, 1946.

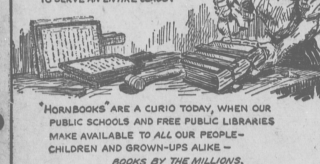

Shepherdsville Road

By Mary Owen Fisher

These Dick Owens celebrated his eighty-sixth milestone last Sunday with a beautiful luncheon at the home of his wife, Mrs. Mary Owen Fisher. Relatives and friends that gathered to honor one they love and respect for his outstanding Christian character. His guests were Messrs. and Mesdames R. E. Owen, Sr., R. E. Owen, Jr. and Maurine Conley Owen of Fern Creek, Mr. and Mrs. W. C. Owen and Monty Wayne Owen of Okolona, Mr. and Mrs. C. G. Dickerson and Master C. G. Dickerson, Jr., of West Point; Messrs. and Mesdames Cecil Bridwell, Roscoe Proctor, Paul Owen, Albert Fisher, Harvey Hubbard and Elaine Carter; Misses Vonnice Reethy GET REUNIONS.

Proctor, Brenda Carline Hubbard and Glacie Elaine Owen; Misses Sola Mae Messers, Elmer Brumley, Royce Carter, Shelby and Over Proctor, Hilary Cox, Allie Owen and Mr. and Mrs. L. Cox. Uncle Dick seemed to enjoy the date, and especially the lovely birthday cake from his son, Paul, and family.

Mrs. Herman Schwedendick spent a couple of days last week in Louisville with her son, William Schwedendick, and family. Mrs. Ann Bolling of Louisville spent last week with Mrs. E. A. Klotz, and on Thursday went to the State Fair with Miss Minnie Sue Brumley and George Sue Schwedendick.

Mr. and Mrs. Pat Mattingly John Cross, Billy Goff, Vester Scroggins and family attended the closing services Sunday at the Tabernacle on the hill west of Shepherdsville.

The W.S.C.S. of Bethel Methodist Church journeyed to the home of Mrs. Smith Terry on Seatonville Road last Thursday for their all-day monthly meeting. Mesdames Edward Owen, Hobart Downey and Ernest McIntyre of that section were there also.

Mrs. A. H. Fisher was an all-day visitor Wednesday of Miss Lillie, Minnie and Anna Owen. Mr. and Mrs. Shell Moore are enjoying a new electrical refrigerator.

Mrs. Vernon Owen of Louisville, daughter of Mr. and Mrs. John Peacock, will have to undergo another operation. This is her third.

Mattie and Cross took a truckload of wood and tobacco sticks over to Miss Cora Miller on Back Run Saturday afternoon. Mesdames Mattie and Albert Fisher went along for a visit with Miss Miller.

Smryna News
By Mrs. E. N. Rush

Congratulations are extended to Mr. and Mrs. Charles Irwin who were married Sunday afternoon, September 14, in the Bethel Presbyterian Church. The bride was formerly Miss Ellen Ricketts, and the groom is the son of Mr. and Mrs. R. T. Irwin of Elizabethtown, Ky. Out-of-town guests for the wedding included Miss Wilda Bennett of Owensboro, Miss Billie Bruce of Bradfordsville, Mr. and Mrs. J. H. Lewis of Burnside, Mr. and Mrs. G. Willis and children of Hopkinsville, Mr. and Mrs. W. E. Upton and daughter, Clarice, of Bowling Green, Mr. R. T. Irwin of Elizabethtown and Mr. Charles Altkins of White Plains, Ky.

Mr. and Mrs. Warren McCauley and son, David, returned Friday from a month's visit with relatives in Iowa and are now guests of Mr. and Mrs. E. N. Rush and family.

Mr. and Mrs. Charles Sims and son, Bob, left Sunday for Washington, D. C., where they will visit Mr. and Mrs. Maurice Parrish. Mr. Gene Sims returned home Thursday after spending a week with friends in Philadelphia. Sunday dinner guests of Mr. and Mrs. E. N. Rush were Mrs. Lillian Smith of Louisville and Mrs. E. N. Rush, Jr., and Mr. and Mrs. Warren McCauley and son, David.

The WORLD'S FIRST "CANCER MOBILE"

The Reverend John A. Floersch, Archbishop of the Diocese of Kentucky, dedicates the world's first Cancer Mobile at a presentation held at St. Joseph's Infirmary.

The world's first "Cancer Mobile" was presented to the Kentucky Division of the American Cancer Society at Kentucky's first Cancer Symposium, held recently at St. Joseph's Infirmary. The mobile unit has diagnostic equipment that includes an X-ray machine. It also has a dressing room, laboratory, emergency lighting system and facilities for the developing of X-ray film.

The compact mobile unit is a 1941 Dodge job-baited truck chassis with a 1941 wheel base. The entire unit is 17 feet long and has a gross weight of 15,000 pounds. It was purchased through the Breaux-Baldard Company, Louisville, Kentucky, at a cost of \$18,300, by the Junior League of Louisville, Inc., as a gift to the Kentucky Division of the American Cancer Society.

The Cancer Mobile will travel throughout the state beginning with Leitcher County and then to other counties inviting its service through their medical societies. It will be used for detecting and diagnostic clinics primarily for indigent cancer cases. However, according to the American Cancer Society, if the cooperating county medical society so desires, members of the medical profession may refer private cases for group diagnosis.

Dr. Ellis Duncan, Louisville surgeon, aided by volunteer doctors from each county, will hold the free cancer clinic.

The Cancer Mobile was presented by Miss Martha O'Brien, president of the Junior League, and was dedicated by the Reverend John A. Floersch, Catholic Archbishop of the Diocese of Louisville.

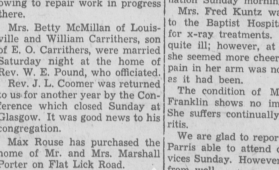

Cancer Clinics Made Possible Throughout State

The Cancer Mobile will only go to counties that have extended a formal invitation through the county medical society. Requests should be made to: Ellis Duncan, M. D., Director, Cancer Mobile, 721 Brown Building, Louisville.

U. DUCHE'S RESCUE . . . Ohio Sherkey, former German army officer who "rescued" 100 prisoners from Italian partisans after the fall of the Fascist government, is shown at special trial before a military tribunal in Dachau, Germany.

Hitler Hope for Red Peace Told

Planned to Keep 1943 Pact From Allies; Continue Lend-Lease.

WASHINGTON—Hope for a Nazi armistice with Russia in 1943, which would have been kept secret from the western Allies and in which the Soviets would have continued to draw lend-lease from the United States, came to light in captured German naval documents. Bombing of the United States with a new high-speed, long-range aircraft carrier also was considered but was abandoned in July, 1943, "because the few airplanes which could get there would be of no significance but would only arouse the will to resist in the population."

Sought Rocket Use.

Adm. Karl Dönitz, as commander in chief of the navy, wanted to use the V-1 robot bomb or the V-2 rocket, to attack Allied shipping at Gibraltar in the summer of 1943. But Hitler vetoed the plan because of the "risk that some of the new weapons might fall on land at Gibraltar and that the British will find out what they are." It was not until the following year that the forces were lost at Midway.

The reference to the plan for a Russian armistice did not make clear whether it actually had been submitted to the Soviets. The complete reference was as follows: "We can hope to win the war only if we can stop expending our forces in the east. So far Japan has not been used for this purpose, for fear of weakening Japan in the south by engaging her in the north. Also, she might not be able to muster the necessary supplies for both fronts."

Eye Jap Raid.

The Japanese Kwangtung army stands ready with a million men. Japan herself evidently realizes that intervention in Siberia may be necessary.

"Russia is getting considerable supplies via the Far East. Therefore the question arises whether or not we should not make an offer of an unannounced armistice on the eastern front, to be kept secret from the Anglo-Saxons. Russia would continue to accept lend-lease materials. This political goal would be achieved."

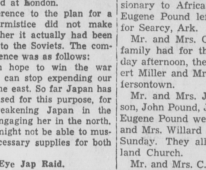

"If this fails, the east will must be built as quickly as possible." Germany's defeat was beginning to appear likely that summer, although none of the high army and navy around Hitler wanted to be the first to say so.

Hitler himself was looking for "an unexpected way out" to prevent the question from arising. It had many times in history.

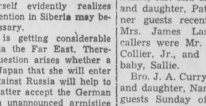

The situation was "perilous," he admitted, but he hoped that the Allies would fall out among themselves the nearer they got to success.

Clark News

By Mrs. J. A. Lashbrook

Mr. and Mrs. Arch Yager have had for their guests Mr. Yager's mother and sister from Washington county. They all spent Sunday a week in Indiana with relatives.

Mr. and Mrs. F. W. Bryant spent Sunday with their new granddaughters, born September 9. Her parents are Mr. and Mrs. Charles and Mrs. N. D. Bland. Mother and baby are doing nicely.

Mr. and Mrs. D. T. Collier, Jr., are the proud parents of a nice baby boy, his name is Charles David Collier, born at the Baptist Hospital, Louisville. Mother and baby expect to be home soon.

Mr. and Mrs. N. D. Bland spent Saturday at the fair; also Aurelia Ann Miller and their daughter, Patricia Ann. These youngsters spent an enjoyable day.

Mr. and Mrs. R. A. Breeden, Mrs. Richard Starck and little daughter, Susan, of Midway, called in the home of Mrs. George Bland and Mr. and Mrs. N. D. Bland and daughter, Patricia, Sunday.

Mr. Eugene Pound had as his night guests Tuesday in the home of his parents, Mr. and Mrs. J. P. Pound, Mr. Paul Clark of Louisville and Mr. Vernon Lawyer of Searcy, Ark. Mr. Lawyer expects to sail around October 3 as a missionary to Africa. Mr. and Mrs. Eugene Pound left Sunday night for Searcy, Ark.

Mr. and Mrs. C. C. Miller and family had for their guests Sunday afternoon, their son, Robert Miller and Mrs. Miller of Jeffersontown.

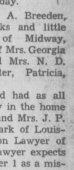

Mr. and Mrs. J. P. Pound and son, John Pound, Jr., Mr. and Mrs. Eugene Pound were guests of Mr. and Mrs. Willard Hart and family Sunday. They all attended Portland Church.

Mr. and Mrs. C. B. Graham and daughter, Virginia, Mrs. Georgia Bland, in the home of Mrs. George Bland and daughter, Patricia, were dinner guests recently of Mr. and Mrs. James Lashbrook. Other callers were Mr. and Mrs. F. D. Collier, Jr., and son, Larry, and baby, Sally.

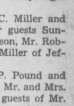

Bro. A. Curry and Mrs. Curry and daughter, Nancy, were dinner guests Sunday of Mr. and Mrs. House and niece of Plum Creek.

ELIMINATE HAND PITCHING
... SPEED UP LOADING
with an Easy-Handling JOHN DEERE Manure Loader!

Eliminate the hard work of manure loading! Load the biggest spreader in two or three minutes with an easy-handling John Deere Stationary Manure Loader. You'll do the work faster and easier than ever before. You'll be able to spread manure more frequently and far easier—saving valuable plant foods which might otherwise be wasted through weathering. Mounting on the rear of any John Deere "A", "B", "C" or "GM" tractor, the John Deere is driven by the tractor's power take-off shaft and can be used in many ways. It is the ideal loader for use in barnyards and feed lots. See us soon for complete information.

Bardstown Road News

By Mrs. Fielden Frederick

Dr. Kenneth Bowen, president of the College of the Bible, Transylvania University, occupied the pulpit at Newburg Christian Church on Sunday morning, using "Choosing Your Destiny" as his subject. One point this minister made was that each individual re-

ceives three votes: The Lord, for you; Satan, against you; and you, for the deciding vote. Bro. Bowen will not be with this church for two weeks as he will have charge of revival services in eastern Kentucky.

Bro. Kenneth Baird and family returned last week to Iowa, after an absence of two weeks. Bro. Baird will take up his regular work with the Christian Churches of that district.

Mr. and Mrs. James Webb have opened a new meat shop in the rear of Mr. and Mrs. Roland Leslie's Hardware and Dry Goods Store where fresh and smoked meats and many other good foods can be obtained. "Jimmie," as he is best known, had charge of the meat department in Mr. Leslie's grocery and sold only the best and will continue to do so. Mrs. Webb, better known as "Maude," is Mrs. Leslie's sister and a favorite with all who know her. They will appreciate your patronage.

Mrs. Grace Ellis and son, Coleman, have returned home after a week's stay with relatives at Willsburg and Van Buren, Ky.

Mrs. Algia Baird visited relatives in Louisville for the week-end.

Mr. and Mrs. George V. Page returned to Bowling Green Friday, after a visit with relatives here.

Mrs. Whitaker, of Tennessee, is visiting her daughter, Mrs. Earl Wright, Mr. Wright and family.

Mr. and Mrs. Edward Kaufman will entertain their friends on Tuesday with a "watermelon treat" at their home near Smyrna.

Miss Mildred Kaufman will leave next week for Bowling Green where she will enter "Western Teachers' College."

Mr. and Mrs. Fielden Frederick were guests Saturday afternoon of Mr. and Mrs. R. C. Frederick in their new home near Seatonville.

Mrs. and Mrs. George Wolfen and Mrs. C. E. Boss visited Sunday afternoon.

Mr. and Mrs. James Mills recently spent a week with relatives in Illinois.

Mr. George Gallagher still continues ill at his home on the Shepherdsville Road, we regret to report.

Mr. and Mrs. Orville Stivers entertained at dinner Sunday in honor of Dr. Kenneth Bowen of Lexington.

U.N. Facts and Faces ETHIOPIA

One of the oldest countries in the world, with a royal house which traces its descent from King Solomon and the Queen of Sheba, Ethiopia covers some 350,000 square miles of mountainous north-east Africa, bordering on the Sudan in the West, on British Kenya in the South, and on French, British and formerly Italian Somaliland and Eritrea in the East and North. Her population is more than 12,000,000, many belonging to the Coptic Church, one of the oldest Christian faiths in existence. Addis Ababa is her capital. The country's official language is Amharic (see map). Ethiopia was represented on the Special Session of the U.N. General Assembly by Ras H. S. Imru. Her flag is green, gold and red, with the country's emblem, the Lion of Judah, in the center.

Newburg News

By Mrs. J. H. Shively

Dr. Bowen delivered an excellent sermon at Newburg Sunday. Subject, "Choosing Your Destiny." Many visitors were present and they are all very welcome at "The Little Church by the Side of the Road." At the close of the service, Mr. and Mrs. Shobe took membership with the Newburg congregation, which gladdened our hearts for we know they will be a great blessing to us. Fine Christian people and so willing to work for the Master. Mr. Shobe is the pastor of the Church and did a very capable musician, having played for us several times. Dr. Bowen was very kind and helpful, but hope it won't be too long. Mrs. Shirley Nebbett, Mrs. Carl

Frey, Mrs. Lenora B. Cartwright and Mrs. J. H. Shively met at the home of Mrs. L. P. Jones and Mrs. C. H. Hart Thursday afternoon to start work on articles for the future bazaar. It was a very profitable evening. Mrs. Nebbett brought many attractive patterns for bibs, aprons and pillow cases as did Mrs. Frey and Mrs. Jones. We were glad to have Mrs. Cartwright. Mrs. Jones served delicious ice cold punch which was very refreshing on that extremely hot afternoon.

Mrs. P. A. Davis and Miss Lois Davis were dinner guests of Mr. and Mrs. Cook and Mrs. Shively Sunday and all attended the church meeting Sunday afternoon.

A great many from here attended the State Fair last week.

Mr. and Mrs. Otto Jones of Lexington were week-end guests of Mr. and Mrs. L. P. Jones.

Mrs. Lenora Cartwright and two friends from Lafayette, Ind., and Miss Ida Alt of Louisville had luncheon at the Plantation and attended the show to see "Close With the Wind."

Mr. and Mrs. Joe Brown and their attractive little family, Rosalind, Diane and Melvyn Brown, who have been guests of Mr. and Mrs. John Lannert for some time, will soon be returning to their home in Glendale, Fla. (Mrs. Brown was formerly Miss Evelyn Lannert).

Mrs. Russell Harrington and son, Jerry, spent almost a week with Mr. and Mrs. Calvin Hart and family while Mr. Harrington was away on a business trip.

Mr. and Mrs. Ellis Bingham are the proud parents of a son, born August 30, named Michael.

PUZZLE.

Find a "DRY" County!

☆ Kentucky has 120 counties. In some of them, Alcoholic Beverages are sold legally. In the others—the "Dry" counties—Alcoholic Beverages are sold illegally.

One thing is certain: Alcoholic Beverages are bought and sold in ALL counties.

The so-called "Dry" counties have learned Prohibition does not prohibit in a county any more than it did in the nation.

Local Prohibition is a direct invitation to the bootleggers and their kind.

Licensed Sale — the present system in many Kentucky counties — is the only system worth having.

(Ask the citizens living in "dry" counties!)

Dean Bingham. Master Walter Bingham enjoyed staying with his grandmother, Mrs. P. Y. Bingham.

Mrs. Edw. Hindle spent Monday in Newburg with her sisters.

Mrs. Marcia Oliver left Sunday to spend some time with her brother at Crab Orchard.

Glad to report some of the sick in the neighborhood improved. Mr. Dallas Hart and Mrs. George Brewer, but Mr. George Gallagher remains about the same.

We miss Mr. and Mrs. W. O. Lilly so very much. Hope they will come back next Sunday and bring Miss Lynch with them. She is a very admirable girl.

Mrs. L. P. Jones and Mrs. J. E. Stanford attended the Home-makers meeting Friday at the home of Mrs. Bates. A large crowd present and a very profitable day. Mrs. Shirley Nebbett gave the lesson on "Textile Painting."

Mr. Jerry Cartwright, upon lawn looks fine, considering you are working seven days in the week.

Fern Creek

By Miss Maggie Johnson

Mr. Irvin Sprowl, who was born at Jeffersontown many years ago, son of Mr. Clarence and Louella Sprowl, died in Connecticut one day last week. His wife died some time ago. His brother Edgar was killed in a wreck several years ago.

There was a good sized Sunday School at Beulah, also church services were well attended. There were six who joined the church. Mr. and Mrs. Theo. Bayless visited in Lexington a few days ago.

The Auxiliary will meet with Mrs. Charlie Fox next Thursday at 1:30.

Sylvia and Barbara White spent the week-end with their grandfather and daughters at 1146 Delor Ave., Louisville.

Was glad to see Dr. N. E. Berry and wife of Versailles a few minutes Sunday afternoon. They both look well.

The first Sunday in October is World - Wide Communion Day, when all churches are expected to observe the day. We welcome all friends and neighbors who do not go to other churches to be with us at Beulah that day.

The friends and relatives of Miss Jane Withers here were surprised to get an invitation to her wedding September 20 in Hollywood, Calif. to Mr. William Paul Moss, Jr. Mr. and Mrs. J. E. Miller and Jeff Allen received invitations.

Miss Ellen Ricketts and Mr. Charles Irvin of Elizabethtown were married at 2 o'clock Sunday at Beulah. The church was beautifully decorated. Dr. W. D.

Chamberlin of Louisville performed the ceremony.

The storm Friday afternoon was bad in parts of Louisville, blowing down trees and some windows were blown out.

Mrs. Fannie Johnson has sold one of her houses in Fern Creek to a family by the name of Brown from Louisville. We welcome them to our neighborhood.

Monday morning about 10 o'clock there was a wreck on Fern Creek hill when a truck driver and a man from Mt. Washington, driver and car were killed. The driver of the truck was burned to death.

Q. Shendall calves vaccinated for Bang's disease stop reacting to the test.

A. About 5% of the calves vaccinated do not stop reacting. These calves are not bred, and they continue to react until they are 24 months of age, they should be considered actively infected and sold for slaughter.

Q. Just how effective is 2-4-D as a weed killer? Does it increase the yield per acre to any appreciable extent?

A. According to a carefully controlled experiment made at the Research Farm of the Balfour Beatty Company recently, there was an increase of 23 tons of grass per acre in seven weeks as a result of pasture weed control with 2-4-D spray. Before the test, samples of weeds and grasses were taken from all pasture to be tested. Weeds and grasses when weighed separately averaged 63% weeds and 37% grasses on all plots. Seven weeks after the treatment of some of the plots with 2-4-D Weed Killer, samples were taken again with the result that untreated plots averaged 85% weeds and 15% grasses while plots treated with 2-4-D Weed Killer averaged 97% grasses and only 3% weeds. The weeds involved were predominantly dandelions, chickweed, henbit, dock and plantain. The grasses were timothy, red top, blue grass and lespedeza.

Q. If sheep are sprayed with DDT, will the fleeces have to be sprayed again in the warehouse to keep the moths out?

A. No. Dr. Leonard Haseman of the University of Missouri has advocated dipping the sheep instead of spraying the bales of wool in warehouses. By dipping the sheep, Dr. Haseman says that the fleeces are not only protected against moths for as long as two years but the sheep are protected against lice and ticks for some time.

Q. Which breed of chickens holds the record for egg production in standard egg laying contest?

A. The all time record was made in 1943 by a Rhode Island Red which laid 351 eggs.

Soil May Build or Weaken Our Bodies

Value of Food Depends On Mineral Fertility

"We are what we eat" and "what we eat depends on the soil that produces it," declares Dr. William A. Albrecht, University of Missouri. "Human health troubles often come from poor nutrition which weakens the body. With its defenses down the body is less able to resist the attacks of bacteria and other forces."

"Foods from some soils provide only fuel for energy, other soils support crops that carry something extra—body building materials. Where rainfall is high and where virgin forests once covered the land, more than half the soil is made up of more than food fuels for themselves and animals. Properly managed with lime, fertilizers and legumes, these soils can be built up to put into crops these body building values."

"On the more fertile soils of the hard wheat belt, the former buffalo

prairies, where the rainfall is less, plants are able to synthesize much more than just food. Because of the mineral fertility left in the soil foods grown here contain body building, bone making values.

"Neglecting to put fertility such as barnyard manure, green manures, lime, and other fertilizers back into soils to balance crop removal pushes crops on these soils to wear out the crops. These 'fed only' crops mean poorer growth and lower health values. The declining fertility soils is a decline in the health of our soils, of our plants and of ourselves."

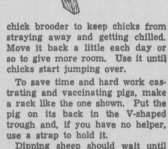

Insoluble Grit Aids Chicken's Digestion

Some insoluble grit, usually granite or river gravel, will be eaten by hens if it is available. It assists the gizzard in grinding grains and coarse feeds that might cause impaction of the digestive tract. Fine ground feed can be digested satisfactorily without grit being available. Oyster shell and limestone rock particles sometimes are used as grit but the digestive juices break these down rapidly and thus make an excess of calcium available. Grit commonly is kept before hens at all times, although some producers prefer to feed it at intervals of 10 days to two weeks.

Rid Worms In Sheep With Phenothiazine

To control stomach and other roundworms of sheep, treat each animal individually with phenothiazine just ahead of the pasture season and keep phenothiazine-salt mixture in a covered trough before sheep on pasture.

Put a fence of corrugated paper (about 12 inches high) around the

Erosion Danger Present In Nearly Every Month

The erosion hazard not only is with us always, but also it comes at any season, almost every month of the year. It is so serious that soil losses of 10 tons or more to the acre in a single month are not at all uncommon. Highest soil loss experienced for a single month in Mississippi was 63,376 pounds per acre. The loss must be combated by terracing, ground cover and conservation.

MEAT CUT Quiz

Q. What is the name of this cut of meat?
A. This is a veal round steak. The dotted lines indicate where the steak may be cut into veal cutlets.

Q. Where does the cut come from and how is it identified?
A. Veal round steak comes from the round or leg, and may be cut further into veal cutlets. It has the same small round shape. However, as in all veal, the cut is 1 1/2 to 2 inches of the beef cut.

Q. How should this cut be prepared?
A. Both the round steak or the cutlets are prepared by the same method of broiling. The meat is broiled slowly over a hot fire, or in a pan or Dutch oven in hot liquid. In addition to water, fruit juice or liquid is added, the pan is covered tightly, and the meat is slow-roasted until tender. The veal flavor is a delicate one and is often enhanced by other flavors. These flavors are frequently introduced in the liquid used in broiling. Suggested seasonings are tomato juice, fruit juice or sirup, or liquid in which dried prunes or apricots are cooked (or cooked fruit as garnish).

THE GARDEN

By John S. Gardner, Kentucky College of Agriculture and Home Economics.

REVIEW OF THE YEAR
At the year's close, business takes account of stock, reviews practices, makes changes and perhaps resolutions. What's done is over with; a new year lies ahead.

Gardens are not unlike businesses; some gardeners are not inquiring enough at the season's end to examine results of wrong practices, or of chances taken unwisely. And, when a new spring comes, and optimism runs high, they may take those same chances again and suffer the same consequences.

Perhaps the first few Mexican bean beetles were not taken into account in the garden. They were taken into account in the garden. They were taken into account in the garden.

Firm Cabbage Heads Make Best Sauerkraut

Whenever firm heads of late cabbage are available, it is time to make sauerkraut, notes Mrs. Pearl Haak, specialist in food preservation at the UK College of Agriculture and Home Economics. Large jars, crocks or wooden kegs are suitable, a 10-gallon container holding about 50 pounds of cabbage.

When a wooden keg is used, it

Preventive spraying for late blight that may come, is the control for early blight that comes every year.

Many gardeners have been surprised to find that the sprayed plants did not rot, but kept on bearing fruit that did not sunburn or turn green.

Perhaps common seed potatoes were used instead of certified seed, and seed treatment was omitted for scab and black scurf. Perhaps some new variety of tomatoes was used, when all the while it was known that the garden soil had the wilt disease, and Marglobe and Rutgers should have been used.

Perhaps the difficulty in easily finding phosphate to use with stable manure resulted in beans and tomatoes growing to top. In this connection, many gardeners this year proved the findings of Kentucky's Experiment Station, that no matter how much superphosphate is used on beans and tomatoes at the beginning of the season, both these crops benefit from phosphate side-dressings when blooming starts.

Perhaps the striped beetle remained unobserved on cucumbers and melons until they died. It is not pessimism always to expect this insect, as it always comes, and when its damage is seen, it is six weeks too late to do much about it.

These and other oversights need not be repeated, and they will not be by gardeners who will keep them fresh in mind, who are constructive pessimists. And with this word, and with hopes for best-ever gardens in 1948 "The Garden" closes.

Drug Mixed In Feed Controls Hog Worms

A new treatment to control worms in hogs, announced from the University of Kentucky College of Agriculture, is feeding for one day a mixture of one part by weight of sodium fluoride and 99 parts by weight of dry ground feed.

There need be no fasting of the animals before treatment, it is stated, but the feed can be reduced on the day before they are treated. Then, the next morning they should be given their regular amount of feed, in which the sodium fluoride has been mixed at two to three months of age and again at four to six months should prove satisfactory.

Grady Sellars, extension field agent in swine husbandry at the College of Agriculture, says the above treatment should be in no way take the place of sanitation in raising hogs.

should be washed well with soda water, scalded, and then exposed to direct sunlight to destroy any odors.

Remove outside leaves and cores of firm heads of cabbage. To every 5 pounds, use 4 tablespoonfuls of salt, mixing it thoroughly. Place mixture in a crock or keg and stamp thoroughly with a heavy potato masher or stamper until the cabbage is covered with juice. Add more cabbage-salt mixture and stamp again, repeating the process until the container is filled to within a few inches of the top.

Cover the cabbage with a clean cloth, put a plate or clean piece of hard wood on it and weight it with a clean rock. The cabbage at all times should be covered with brick until bubbling stops. Remove the scum every few days and wash and scald the cloth, plate and weight.

Fermentation proceeds according to temperature, only 8 to 10 days being required in very warm weather. In cool weather, it will take a longer time.

When fermentation has stopped, heat sauerkraut to simmering, but do not boil. Pack in hot jars to within a half inch of the top and cover with juice, leaving a half inch space. Adjust jars lids and, in boiling water bath, process pint jars 25 minutes and quart jars 30 minutes. Complete seal and store.

Considered by many, one of the best dairy herds in country. Every cow young and sound. Several outstanding cows in herd, milking from 7 to 8 gallons. Mr. Masden has been improving this herd for 18 years.
